ACCEPTED.

Washington, June 2.—The president has accepted the resignation of Judge Dillon, of the eighth judicial district, to take effect September 1st next.

CONGRESSIONAL.

Washington, June 2.—Mr. McDonald being absent consideration of his resolution was postponed.

Mr. Blaine gave notice of a proposed amendment to the constitution. Also to refer the committee on alleged election frauds the facts in regard to the southern districts referred to by him Thursday last.

HOUSE.

Under the call of states very many bills were introduced and referred among them the following:

By Mr. Wise.—For the taxation of promissory notes, bonds and mortgages, and making it unlawful to exact more than five percent interest for the loan of money.

By Mr. Sanford.—Prohibiting the funding of United States bonds payable in currency into coin bonds.

By Mr. Lowe.—To substitute legal tender currency for national bank currency.

JAMES SHIELDS.

Sudden Death of the Venerable Soldier and Statesman.

Ottumwa, Ia., June 2.—Gen. Jas. Shields, late United States senator from Missouri, died suddenly in this city at 10.30 last night. On the Sabbath day he had appeared in his usual health, ate a hearty supper at 6 and wrote several letters, but just before retiring complained of a pain in the chest, and soon thereafter said to his niece that he was dying, and in thirty minutes expired sitting in his chair. He remained conscious to the last. He lectured in this city on Wednesday eve last, and had remained here visiting relatives. His remains leave here for his home in Carrollton, Mo., at 5 o'clock this evening.

CRIME AND CASUALTY.

MURDER.

Scranton, Pa., June 2.—Peter Powell fatally shot his brother yesterday while in a dispute about property. Peter was arrested.

Mr. Hamilton Will Not Enjoin the Masonic Temple Association.

The Gazette this morning gave publicity to a rumor that ex-Congressman Hamilton proposed to begin proceedings to enjoin the Masonic Temple Association from awarding the contract. A SENTINEL reporter called upon Mr. Hamilton this morning to ascertain whether there was any foundation for the report. Mr. Hamilton stated emphatically that there was no truth whatever in the rumor, nor has he any knowledge whatever of how it originated, as he has not been down town or spoken with any one regarding the Masonic Temple for four or five days. Moreover, should he wish to do so, he would be entirely powerless to enjoin the association from doing as they pleased, as he is not a stockholder in the company. H. N. Ward took one share of stock for Mr. Hamilton while he was in Washington, and that share Mr. W. still holds, so that as an individual Mr. Hamilton states he would be powerless to enjoin said company. The only way in which he would have any right in the premises would be as a trustee, and in conjunction with the other trustees of Wayne Lodge and under their orders. Wayne Lodge is a large stockholder and it could if it wished enjoin the association from building the temple upon the grounds mentioned in the *Gazette*, or any other sufficient grounds, but there has been no action taken in the matter and but one stockholder has ever mentioned it to Mr. H. Mr. Hamilton says he was opposed to the scheme as it was carried out and had nothing to do with it. What he gave toward the project he gave to the city lodges, and it was by them converted into stock, but, individually, he has had no share in the matter. He states that he met with

In transplanting tender vegetable plants, such as tomatoes, cabbage, and other similar plants, it is profitable to have prepared a bucket of manure water brought to the consistency of thick butter by mixing in soil. Dip the roots of the plants in this paste before placing the sets in the rows or hills.

I was as much amused as surprised at seeing two Berkshire pigs, about six months old, sucking a cow in a pasture, as I was passing by, one day last summer. The pig, one on each side, had squatted down, sucking away for dear life, while the cow stood quietly chewing the cud of contentment.—*Rural World*.

To raise good tomatoes, says an expert authority, take away a wheel-barrow of earth from where each vine is to stand, fill with half soil and half ashes, and therein set out the plant.

Plants thus treated will bring out nearly double the fruit of others, and much smoother and larger in this soil, though in case of drought the plants require water sooner, and more of it, than those growing in common soil.

HUBBARD PORTER.

Sudden Death of One of Chicago's Leading Citizens.

Saturday's Chicago Times contains the following:

The ranks of the old settlers—the men who built Chicago from its marshy foundation—have closed up during the past few years with startling rapidity and regularity, and another honored name must be added to the long list of those who have sought to fathom the unknown. Hubbard Porter, esq., who was closely identified with the business interests of Chicago for over forty-five years, died suddenly at half past 9 o'clock on last night, aged seventy-two years, at his residence No. 1,268 Michigan avenue, from apoplexy of the lungs. Less than half an hour previous to his death, Mr. Porter was in the full enjoyment of health and surrounded by the members of his family and friends. The deceased gentleman came to this city in the early part of 1833, and shortly afterward engaged in the forwarding and commission business under the firm name of Porter & Bristol, at the head of which he remained for ten years, the meanwhile reaping liberal reward as results of industry and equitable dealings, a large proportion of which was invested in various remunerative enterprises. For the past thirty years Mr. Porter has not been engaged in any active business, and led a quiet and retired life, surrounded by his family, consisting of a wife and eight children, all of whom are grown up.

The deceased has been a member of Grace Episcopal church for the past twenty-five years, and took a deep interest in the welfare of that organization, being senior warden for several years, and having held other offices of importance in connection with the body.

The deceased was the father of Chas. R. Porter, of this city, who was in Chicago on Friday evening, and left his father that night apparently in his usual health. When he arrived at Fort Wayne he received a telegram announcing his father's death and at once returned to that city. The funeral took place to-day.

The Houghland School Addition.

The contract for the addition to the Houghland school building was awarded to-day to Mr. Harvey F. Hinman.

The bids were as follows:

Wm. K. Kroop.....\$2,455

George Myers.....1,030

Cochrane, Humphrey & Co.....1,610

Harvey Fallinman.....1,400

The addition will be 35x41 feet in size, two stories high and will contain three school room, a hall and an office. This will give four intermediate rooms and nine primary rooms in the building. Work will begin at once, the addition to be completed August 16th.

Meteorological.

Washington, June 2.—Indications for the weather in Ohio valley, where pressure, cool northerly winds, gradually backing to warmer westerly and numerous rains, succeeded by clearing weather. For lower lake region higher pressure, northwesterly winds becoming variable cool and cloudy weather and numerous rains generally succeeded by warmer clearing weather.

CHARITY!

Dr. Bull's Baby Syrup is becoming more appreciated, as its wonderful influence in subduing the diseases of babyhood becomes recognized. Price 25 cents.

Election of County Superintendent.

The township trustees met to-day in the agricultural rooms, at 2 o'clock sharp, to elect a county superintendent. Wm. Glenn, of Abolite township, in the chair.

D. M. Allen and Jerry Hillegass were the only candidates who "showed up." Hillegass was re-elected on the first ballot by a vote of 15 to 5.

LIVE STOCK AND FARM NOTES.

Of the 26,000 flour mills in the United States, more than half are located on the Ohio River.

Farmers in Wisconsin will be forced this season to plant a bulldog with every watermelon seed.

It is estimated that there are at present 50,000,000 bushels of grain in store at the upper lake ports.

There were 280 tons of California grapes received weekly and sold in the markets of Philadelphia during the past season.

The cattle movement toward the principal markets of the United States is now three times as great as it was fifteen years ago.

A San Antonio (Tex.) firm has shipped since July 8th, 1878, 3,333 tons of bone to the north, where they are used for fertilizing purposes.

Snake and Hawk Fighting. (Buena Vista Argus.)

Corbin Kendrick and some other freedmen found, near Buena Vista, Ga., a hawk lying on its back near the road. The ground showed signs of a terrible struggle. A snake was coiled around the hawk, and was holding it perfectly still and apparently in the agonies of death. Kendrick tried to kill both snake and hawk by shooting them, but the shot broke only one wing of the hawk. The snake was then struck with a stick. As soon as its coil was broken the serpent sprang at the man who struck it, and then went back to the hawk. The hawk arose and seized the snake by the head, and the negroes killed the serpent.

From the President of the Meridian National Bank, Indianapolis.

It gives me great pleasure to state to the public that under Dr. Von Moschzisker's treatment, not only has my hearing been restored, my ear entirely relieved of the disease, but also my eyesight, which had been greatly impaired, has been greatly improved.

The radicals are filled with fear and apprehension lest the Ohio democrats should nominate Judge THURMAN for governor. The prospect is, however, that KIRK or BISHOP will be nominated. If a new candidate is taken up it will be Gen. TOM EWING.

THE food of the country is chiefly wheat, corn and meat, and the clothing cotton. Nature has given to the United States a soil more fertile and a climate better adapted to the production of these articles of food and clothing than any other country under the sun, and therefore labor engaged in producing them should be better rewarded here than anywhere else in the world. The value of every article for which there is a necessity or demand is its cost in work to produce. The demand for food and clothing is more universal than for any other products of human labor, therefore the American farmer of average skill, intelligence and physical strength has a right to expect for his labor, natural advantages being equal, the same reward as a man of the same parts engaged in the production of any article for which there is a like demand. Nearly every other product of labor can be produced in other parts of the world with the same labor that it can in the United States, therefore if there were no restrictions on trade, agriculture would be the most profitable of all industries in this country.

FRIDAY NIGHT'S DISPATCHES.

(Crowded out of Saturday's issue.)

BREVITIES.

Both houses of congress have adjourned until Monday.

A fire at Millbury, O., destroyed the saw mill and considerable stock, logs and lumber, owned by A. J. Miller; also the dwelling and an unfinished church. Loss, \$8,000; insurance, \$3,000. Both fires are supposed to have originated by spark from a locomotive.

Decoration Day was celebrated at New York, Brooklyn, Washington, Toledo, Chicago, Cincinnati, Pittsburgh, Indianapolis, Louisville, Detroit, and other points. Dispatches from the east and north show that the day had a very general and affectionate observance. At Lancaster, Pa., a platform broke down and two persons were seriously, and four others slightly injured.

London, May 30.—The Chilian minister has received a telegram stating that the Chilian ship of war Esmeralda became disabled, and her captain fired the magazine to prevent her falling into the hands of the enemy.

London, May 30.—In the race for the gold cup, Primrose and Parole ultimately led until fairly in line for home, when Primrose was beaten, and Parole, getting the best of Alchemist, won cleverly by half a length. Primrose coming in a bad third. The value of the stakes is \$4,200. The Sportsman says that with Parole's victory foreign horses may bid farewell to any allowance in weight for age cups.

Ashtabula, O., May 30.—A serious accident occurred here this afternoon, resulting in the death of Edward Holland, and the serious injury of his brother Tom, who were at work in the new coal crane used in loading vessels. The gang of men were at rest while the engineer was repairing the machinery, when one of the stakes to which the gang-rope was fastened broke, letting the crane fall into the gang of men sitting near by, striking Tom Holland upon the knee, inflicting a gash about five inches long, and falling upon Edward Holland's breast, killing him instantly. He was unmarred.

Toledo, May 30.—A fire at East Toledo, this afternoon, destroyed the packing house and contents, owned by S. and D. A. Brown, occupied by the Toledo Provision Company; also, the slaughter house, owned by the same firm, and barns and sheds of the Lake Shore and Michigan Southern stock yards, leased by Crocker & Co., of Buffalo. Estimated loss, \$8,000; insurance, \$6,000.

A GREAT BATTLE.

A telegram from Maritzburg, dated May 14th, says that there is exciting news from the Tugela frontier, near Helpmakaar; on the 11th of May a great battle took place at a point between Thingpost and Samhawala. The powerful chief, Matcon, with all his people, numbering some thousands, had resolved to surrender to the British. He was joined by Dabamazi, Cettewayo's brother, who commanded the Zulus at Gengiblova and a remnant of that army, its chief having kept away from Cettewayo since their defeat through fear. When nearing Thringpost they were unexpectedly repelled by a powerful force, supposed to be commanded by Cettewayo, and coming from the northwards. A conflict ensued, resulting in the great slaughter of the Zulus who wished to surrender. They were dispersed and driven back, and Matcon captured. It is reported Dabamazi is killed. King Cetwayo, elated with his success and apparently learning that Lord Chelmsford's columns have made a forward movement, has summoned all his followers and has taken a strong position at the fork of the White Umvoti. At his back are some of the highest known mountains of Zulu, and densely wooded at the base, and the country in front is swampy. Here the king evidently awaits the British. Native scouts state he has declared he will never surrender. He is believed to have collected all his available forces, and raids in Natal are now feared. A bridge across the Tugela is now available for light transport. Col. Pearson, who has been suffering from fever, is better. Much sickness from sunstroke prevails. The Boers in Transvaal are quieted down. Col. Creel's column has had some skirmishing with unimportant results.

An Honest Medicine Free of Charge.

Of all medicines calculated to cure any affection of Throat, Chest or Lungs, we know of none we can recommend so highly as DR. KING'S NEW DISCOVERY for Consumption, Coughs, Colds, Asthma, Bronchitis, Hoarseness, tickling in the throat, loss of voice, etc. This medicine does positively cure, and that where everything else has failed. No medicine can show one-half so many positive and permanent cures as have already been effected by this wonderful remedy. BE YE LIKE FOOLISH.

"For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used a small fortune in humbug salts. Six months ago, I saw a U. S. flag with Hop Bitters on it, and I thought I would be a fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her. She is now as well and strong as any man's wife, and it cost me only two dollars. Be ye likewise foolish."—H. W. Deitrich, Mich.

Taming Horses by Electricity.

The general omnibus company of Paris for some past has made use of electricity for subduing vicious horses. By the process adopted, intractable animals given to biting, rearing and kicking are rendered less obnoxious, and submit peacefully to be groomed and harnessed. To obtain this result a weak current of electricity is passed into the mouth of the horse each time it becomes restive. The will of the animal seems almost annihilated. The current is produced by a small induction machine of the Clarke system, the wires of which communicate with the bit of the bridle. The employment of electricity is said to produce a sort of uneasiness or torpor rather than pain, and is much less barbarous than many taming methods hitherto adopted.

We have long wanted a safe and reliable remedy for the care of Chills and Fever. Quinine will cure it, but it disturbs the head and the fever return. Now, we see that Messrs. Wheelock, Finlay & Co., publish the composition of their Dr. F. Wilholt's Anti-Periodic or Fever and Ague. St. Louis patent made over three

HAZZARD.

Tells a Story of His Wrong to a Reporter.

And Makes Himself Out an Abused Individual.

Geo. Hazzard was at Logansport Saturday and made the following statement to a Journal reporter:

In pursuance of an agreement made with the prosecuting attorney of DeKalb county, at Indianapolis in the presence of Mr. Byfield, Edgar Henderson, Mrs. Gear and D. C. Justice, of this city, to the effect that he was to be allowed to go to Auburn and transact some private business at that place without arrest on trifling charges, he went to Waterloo last Saturday, and in the evening drove over to Auburn, four miles distant. He had been there but a few minutes when an affidavit was made, and he was arrested for provoking an assault a year or two ago. This was immediately followed by five other warrants for provoking assaults, carrying concealed weapons and desecrating the Sabbath. He declined at that late hour to give bail, and refusing to try the cases that night he was put in jail by the sheriff. On Monday he was arrested on four other warrants on one pretext or another. On Tuesday, Mr. Byfield, one of his attorneys from Indianapolis, and Mr. Edgar Henderson arrived, and demonstrations were begun. A fellow by the name of Cool, and another named Gross threatened Henderson that if he bailed Hazzard out of jail they would shoot Hazzard and mob Henderson, and seven shot guns were stacked in the open court house yard, and several others in an adjoining building, and various demonstrations made, until the sheriff ordered the yard cleared. On Wednesday, the argument on the indictment for embezzlement came up before Judge McClellan, and the court quashed it. Hazzard then prepared to fight the thirteen arrests that had been made, and took a change of venue to Butler, and finally succeeded in beating every case in which he had been arrested before a justice of the peace. In the meantime some of the charges were remitted before the grand jury, who, in accordance with the general programme, indicted him again. He at once gave bail on the charge until the next term, and was discharged. He went from here to Indianapolis this morning to meet a charge made against him by his enemies, in the United States court. Hazzard has been arrested forty-one times by the Auburn crowd, and now proposes to put them on the defensive. He vows that all the money he can raise shall be placed to "law account" for the benefit of those who have been pursuing him for the last year. The conduct of the prosecuting attorney in violating the agreement made with Hazzard is severely condemned by him, and it so strike the ordinary observer.

[Indianapolis News, Saturday.]

George Hazzard returned from Auburn this morning and gave himself up to the United States marshal under the indictment recently returned against him, charging that he withheld assets from his bankruptcy schedules. Edgar Henderson, of Anderson, went on his bond and he was released.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

EVERYTHING AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are constipated, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequalled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression DR. C. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

MUSIC RELIGION.

The Universalists Worship God in the Woods.

Yesterday's Basket Meeting at Rome City.

The Universalists held a grand basket meeting at Rome City yesterday. The early morning looked fair, but about 8 o'clock rain began to fall and continued during the entire morning.

A good many who had contemplated spending the day at Rome City were discouraged by the weather and gave up the idea, but nevertheless several hundred were at the south depot at 9 o'clock eagerly waiting for the excursion train. At about half past nine the train arrived and after stopping a few minutes bounded on its course, arriving at the little pleasure city at half past eleven. There were excursion trains run over the Muncie road from Logansport, the Richmond and Cincinnati road from Portland and the Grand Rapids from Kalamazoo. The total number of passengers carried was one thousand.

Upon arriving at Rome City, a general rush was made for the pleasure boats and in a few minutes the little lake was dotted in every direction with excursionists.

On account of the rain no services were held in the morning. At 1:30 p.m. the Sunday school classes met and sang several pieces.

The regular services were commenced at 2 o'clock. Prayer was offered by the Rev. R. M. Curtis, after which the choir, consisting of Miss S. F. Gaston, Miss Belle McDonald, Miss Hattie Leonard and Mrs. J. P. Wagstaff, W. F. Heath and R. F. Keith, furnished plenty of sweet music. The Rev. J. H. Dobson, the Universalist minister at Muncie, preached a very eloquent sermon from the text, "Go up High." Mr. Dobson reasons in a very practical way, and surely his delivery is made in an effective manner, and adds much weight to his argument. He was listened to with close attention for over an hour by about 400 people.

Mr. Crosley closed the services with a few remarks, and all participated in pleasure for the remainder of the day. No rain fell while on the grounds, but the air was very chilling, so it was decided to make an earlier start for home. At 4:30 all were on board the homeward bound train and in two hours they were landed at the south depot. Considering the disagreeable weather, a very pleasant time was had, as is always the case at the affairs conducted by the Fort Wayne Universalists, and all seemed amply rewarded for their time and money.

No accident of any magnitude occurred during the journey. A small boy who ventured to near the water tub, but was rescued after receiving a cool ducking. The excursion will be represented on Sunday, June 22d.

MUSIC IN THE AIR.

Yesterday, Geo. Quidore and several other young gentlemen were boat riding on the big basin in the Wabash and Erie Canal, when the boat capsized and they had a narrow escape from drowning.

CIRCUS CHAT.

A Few Valuable Hints to the Uninitiated.

Paste This in Your Hat.

The circus will be here to-morrow and a few suggestions may be of in-

valuable value to the uninitiated.

1. Get to town by 5:30 a.m. If you get in any later go the auditor's office and file an excuse.

2. Get drunk before 9 a.m., and put in a full day. That's just a circus is for.

3. If the marshal remonstrates with you, tell him to engrave, tell him you're an untamed wild cat and invite him to chew your name. If he touches you, have him arrested.

4. If you see a three card monte man, go for him and bet your pile.

He's probably a greenhorn that don't know his game. You can skin him in a holy minute. Bet on the card with the corner turned down, always.

5. If you see a boy on the street distributing circulars shoot him on the spot. He's some pickpocket trying to get close enough to you to snatch your pocket book. You might make a mistake, but it don't matter. There are too many boys around anyhow.

6. If you have any friends with you join hands and forward thro'. If any body wants to get around you, let them take the street. This is a free country and you've got more rights than anyone else, anyway.

7. Before you go to the circus, go to the Sheriff's office for a ticket. Two or three days before the show, go to the Sheriff's office and buy a ticket. You can't do anything else to do and it costs very much. He never takes the papers either.

8. When you get in the museum tent grab the rope before the curiosities and stand as still as the angel of death. Don't move on. You paid 50 cents to get in there, and now stay if it breaks a tug. It ain't your fault that you got there first.

9. When you get into the menagerie, if the attendant at the door tells you to go to the right, tell him to go to the devil, you paid to get in there and can go anywhere you've a mind to. If you want to climb the centrepole backwards it's none of his business. At any rate go in the opposite direction.

10. In the circus, get a seat close to the band. Spread your feet over the seat below. You can lie down if you want to; that's what that half dollar was for. Keep your hat on and stand up often. When you stand take your hat off and hold it in your hand. If anybody tells you to sit down ask them what's the matter with them. Chew tobacco all the time, and fire the juice on the next fellow's coat tail. If there are any ladies near you, that's the place to deposit your juice. Don't forget to cheer often.

11. When the circus is over, go to the ticket wagon and demand your money back. They agree to do that, if you are not satisfied. Go up town and tell everybody you met that the show wasn't worth a darn. Get as drunk as you can again; whoop around town till midnight; then go home, if you feel like it, and the next circus that comes to town repeat the dose.

A

New

Hand

Fluter

Superior to All Others.

Foster Brothers have the sole agency for Fort Wayne.

The retail price in New York, Chicago, and all other cities is \$1.50.

Foster Brothers have purchased an immense lot, and to introduce them speedily to the public, have put the price at only \$1.

Its Great Advantages.

1st—It will not melt, being made of brass and iron, and cannot get out of order.

2d—Each Fluter is provided with two heating irons; one can remain on the stove while the other is in use, thus avoiding any delay.

3d—It does not cramp the wrist, having a rolling pressure.

4th—It is cheaper, and makes a better ruffle or puff than any other Fluter.

5th—The heating irons do not come in contact with the clothing, being encased in brass, thus avoiding dust or soil from the stove, and iron rust on the fabric.

Foster Brothers believe this fluter will drive all other hand fluters out of the market. Drop in and examine it.

TRYED

--BUT--

FAILED.
Just as the Case was.
1ST.

One of our competitors advertised a Blue Flannel Yacht Cloth Suit, all wool and warranted fast colors for \$10, and that being higher than ours, we advertised ours for \$8, warranting color and all wool.

2ND.

The above house offers \$50 to our Hospitals if they could not prove they were selling the best suit for \$10 in the market. But only holding this ad. in two days, we offered \$50 to our Hospitals if any house in the city could beat our \$6 Blue Suit, or \$8 Blue Suit, providing they could show the same number of suits at the price that we did, in stock, at the time, which was 50 suits each,—as our trade demands a large number of suits on hand all the time, and holding out the challenge for two weeks, with no takers, until yesterday, when two ladies in the interest of one of the Hospitals came in and wanted to try for the \$50. We told them our ad. was no longer in the paper, but we would still stand by our challenge. They went out and in a few minutes came in and said they had found the suit they wanted to compare. We said very well will they show up the number we ask for? They went to see them, but were told they could not show as large a stock. We then dropped to 20 suits. But the other firm said they could not show but 10 suits (good enough line for a small dealer to carry), but knowing we could not depend on their marks or even their word we refused to enter unless they came up to our proposition, and in the meantime had sent a man to buy one of their \$7.50 suits, who did so. It was finally agreed to compare the suit we first showed to the ladies with the one we had purchased from them. We knew it was no comparison to our suit, and so did the ladies, and they said they thought our suit was the best, but had got the other firm to agree to pay the \$50 if they were beaten. So we concluded to let the decision be on the two suits, and the ladies took both suits over; but the committee did not compare these suits, but compared our \$8 suit to a \$16 suit that had been sent over, and even then the three judges selected were in doubt as to the best suit, but the fourth party was called in, and finally judgment given to the other suit. The judges have since examined our \$8 suit with their real \$7.50 suit, and pronounce our suit far superior, and claim they never saw that \$7.50 suit before. The above is the case, just as it is. The two suits are now in our possession, and we wish all interested to call and examine.
